Camp activities

Campers will be exposed to a wide variety of activities and experiences. They will receive individual instruction to develop new skills, take part in cabin group activities, and participate in games and theme events involving the entire camp. In everything we do at Camp Kornder, we emphasize creativity, imagination, and adventure, in a safe, fun-filled atmosphere designed to encourage growth and the development of self-confidence. Your camper will be able to participate in the following:

Land based challenges

There is always something happening on land at Camp Kornder! At any time, you might find campers enjoying the climbing wall, or various sports!

Swimming and waterfront

Campers will have the opportunity to experience many activities on Christopher Lake at Camp Kornder! Activities include tubing, canoeing, swimming, water trampoline and beach exploring! All activities that take place in the water are led by trained staff and supervised by lifeguards.

Creative arts

Campers can spend time focusing on arts-based programs like drama games, arts and crafts, and talent shows.

Evening programs

Every night at Camp Kornder, the whole camp community comes together to take part in activities like Capture the Pump, skit nights and talent shows. Twice a week, everyone at camp will gather around a campfire where we sing songs, see skits and reflect on our time at camp. These campfires are a highlight of the camp experience for many. Make sure to ask your camper about their favourite song. You might even get to hear it on the trip home!

Serving Diverse Campers

At Diabetes Canada and D-Camps we believe that our camp and youth programs are for all children and youth living with type 1 diabetes regardless of ancestry, colour, race, ethnicity, religion, creed, sex/gender, sexual orientation, gender identity or expression, ability or exceptionality.

To ensure that we can provide the best experience for all of our participants we ask that families complete all registration forms as fully and truthfully as possible. The more we know about our participants the better we can support their needs.

At D-Camps, we strive to create equal opportunities for individuals that may identify or be affiliated with any number of biological, social, and cultural categories. Additionally, D-Camps aims to be open and accessible to all participants, ensuring that identification and/or affiliation with the above categories does not act as a barrier, obstacle, or deterrent that presents a child from experiencing a traditional overnight summer camp experience. D-Camps follows Pride Camping Association's best practices that are directed toward any LGBTQ+-identified youth and those from LGBTQ+ families and aim to create and foster a more comfortable and fun environment, free of harassment, discrimination, hostility, isolation, and any other afflictions of systematic oppression. LGBTQ+ participants and families are welcome to speak to the Camp Director if any accommodations are needed, which will remain confidential. In addition to this, many general inclusive policies are in place to ensure the camp environment and culture is inclusive and supportive for any participants, staff, and volunteers, who have not readily indicated any specific identity or affiliation prior to the start of their involvement in our programs.

If you have any questions about the fit of your child at our programs, please contact our Camp Manager or Camp Director to discuss the support we can provide.

Mailing and care packages

Everyone enjoys receiving mail, so please write! Mail will be picked up a few times a week and delivered to your camper. Send letters prior to or during the first few days of camp to ensure delivery. Letters that do not arrive until after the session has ended will be returned to sender. Any food, beverage, electronic devices, etc. received in care packages will be confiscated for the duration of camp. You may also drop off pre-written letters with our staff at Check-in to ensure they get delivered right away!

CONTINUOUS GLUCOSE MONITORS

With the progression of diabetes treatment tools and technology, we welcome continuous glucose monitoring (CGM) devices and technologies which are approved by Health Canada at D-Camps. **Devices and systems that are yet to be approved by Health Canada cannot be used at D-Camps.** We recognize that some of our participants are use to using CGM technology in their diabetes management and that this provides them with comfort and routine.

Transmitting functions will be turned off while at camp, and if a cellular device is used as a transponder, the SIM card will be removed for the duration of camp and kept in a secure location that will be returned come the end of the camp session.

Medical use for monitoring and treatment of CGMs is up to the discretion of the camp's medical team, and we will provide you with an update of what this will look like closer to the camp season!
